

What is the Great Reset?

Brandon Holthaus

L&L Great Reset Conference

October 16-17, 2021

Brandon Holthaus: So, let's go into this. What is the Great Reset? It's the deceptive agenda to revive the Babylonian global system. So, this is a very ancient thing, but it's the new world order, they call it today internationalism, or whatever other name they want to use. But it goes all the way back to Babylon, and now it has this chance now to revive. And like Billy said, this is not a conspiracy theory anymore. We used to say things like this about the new world order about ten years ago, and they thought we were conspiracy nuts and part of the tinfoil hat brigade. And now they don't say that anymore because their own people are so bold, they will actually come out and say it.

Listen to these Australian leaders.

Video

Brad Hazzard (NWS Health Minister): Through the world pandemic. It is a 1 in 100 year event, so you can expect that we will have transmission from time to time, and that's just the way it is. We've got to accept that this is the new world order. We've got to accept that this is the new world order. The new world order. The new world order. Life can go on as it is, but--

Brandon Holthaus: He keeps saying it.

Brad Hazzard : What I'm seeing as Health Minister is a level of apathy, a level of complacency. I understand that, but I'm not happy about it. I'd also say this, the other area of danger is the place that we would normally consider to be the safest place on earth, our homes. Now, you've already heard today that one of, or a number of the people who have actually now got the virus got it in a home situation, and we'll hear more detail about that in due course. But it is both a safe place, and a dangerous place. We must treat this new world order, this new world of Covid. We must treat this new world of Covid, even in our own homes with a high level of care and caution. Can I ask, oh, we must treat this new world order with a high level of care and caution.

Brandon Holthaus: Listen to her.

Reporter: Will exposure sites be put back into place especially with reopening, and people going back to pubs and stuff? Because are exposure sites, will they be put back into place to listed once we are reopening because they're not at the moment?

NWS Health Advisor: We will be looking at what contact tracing looks like in the new world order.

Brandon Holthaus: Well, there you go. We're not the ones saying it. They are. Now here's the thing. Why are they so bold to say things like that? Because they know there's nothing to stop them. They have the power and they're implementing it as we speak now.

Now, what is the Great Reset? Obviously, there's a couple of things I want to mention on it. It is the World Economic Forum's name for it, the UN's name for their goal of creating a globalist system: a one world government, one world economy, one world religion. Pretty easy to understand at the base level. But that's what they're attempting. Well, how does it fit into Bible prophecy? Real simple. If you turn to Revelation 17 and 18, you will see the revived Babylonian system that plays itself out all through the Tribulation.

And then just to use this verse, Revelation 18:3, it says, "For all the nations have drunk the wine of the wrath of her," the whore of Babylon, the religious aspect of her, her fornication. The kings of the Earth, that would be the politicians, the leaders, the globalists have committed fornication with her. And the merchants of the earth, the businessmen, Big Tech, Big Corp have had become rich through the abundance of her luxury. So, there is the key aspect. There's the three-legged aspect of the Babylonian system. And so, there's the system, the merchants of the world they are big business. They are your Mark Zuckerberg's. They are your Amazon. They are all these big corporations and big tech that are involved in this. Blackstone, other kinds of major corporations. International corporations. The kings, obviously, rulers, politicians, global elites, they're all involved in this.

And then the religious aspect is among us today. The religious aspect can be called lawlessness or 180ism. Now, why did I say that? Because lawlessness doesn't mean anarchy, it simply means that they're going to do everything opposite of what God says. God says this is right; they say this is wrong. It's 180ism. That's the system of lawlessness. So that's why you see wokeism about everything. You see the pushing of immorality. And then when you act like they want you to act, that cleanses you from all their sins.

The way you atone in their system is bow a knee and proclaim that they have the truth, and you have to submit to their values. That's how you get cleansed. If not, they cancel you. This is the way it goes in the Babylonian system. They have their own set of morality. They have their own high priest class. They have their own sacrifices. And they have their own infidels. That means you and I, we are the infidels in that system. But it is satanic.

Who's involved? I won't go through all of this, but World Economic Forum, billionaires, politicians, leaders of nations, international bankers, world leaders, United Nations, Big Tech, Big Corp, Education Media, International Monetary Fund, prominent global organizations IMF World Bank, Royal Institute of International Affairs, Council of Foreign Relations, the Trilateral Commission, the Bilderberg Group, NATO and hundreds of other NGOs. This is a monolith.

You must understand they have all of this, in control. And that shows you that God has been allowing this to build and get to this point. Why? Because He's going to allow this system to enact itself through the Tribulation. But we're seeing the set up. They are ready to go.

How long has this been in the making? Like I mentioned, it goes all the way back to Nimrod and the Tower of Babel, God dispersed them through the changing of the languages. But here's what they needed. They needed, technology, which a lot of them didn't have. In order to control the entire world, you have to have the technology to do it. To track people, to know what you're buying and selling, you have to know that.

You have to have control. Look at the organizations I just showed you. They're in control, right? They had to have the money with the latest billionaires that have come on the scene, and the old billionaires being combined into one, they have the force of money.

How are you and I going to compete? Or is this world going to compete against someone that has billions of dollars like Zuckerberg, or Bezos, or any of those types of guys. The Rothschilds, all those other older types of wealthy people. For goodness sakes, guys, they're sending their own rockets into space. They just sent up William Shatner into space. Right? 90 years old. And but what did it do? It showed you they have that kind of money more than NASA has. They have it.

And what they needed is a catalyst to set this all in motion, to cause fear and panic in people. And so, what they did, they manufactured a crisis and they got what they wanted, and they're not going to stop.

Other names, it goes by Agenda 21, Agenda 30, The Green New Deal, The Fourth Industrial Revolution. Other catch phrases that you might have heard The New Normal. That means they're telling you you're not going back to your life. We see a lot of Christians who are Laodicean that think, oh, I'll just comply with the government and then I'll get my little life back. No, you won't. They're not letting you have your life back. This set in motion a whole new paradigm. A whole new way that they're going, and they're not coming back. They're not relinquishing their power. They're not giving it back to you and me. Once they take your liberties, they never give it back.

Build Back Better. Have you heard that term? Yeah, I think you have. Now, Biden didn't come up with that because he was creative, they stole that from the U.N. and the other international organizations that were using this term a long time ago. And they've been using it. It's clunky. It doesn't sound right but Build Back Better means they're going to build the Babylonian system, whether they know it or not. That's what their intent is.

Internationalism. Reimagined. Reinvent Capitalism. They're going to destroy capitalism here in America, by the way. Stakeholder Capitalism is what they want. Stakeholder Capitalism, our speakers will talk about that. But it's the idea of they need to be part of the woke system, the ESG system, and they have to contribute to all kinds of woke causes. New Social Contract. Restructuring Society. Equitable. Have you heard that phrase yet? They don't want equal opportunities. They want equal outcomes. That's a form of communism, socialism and Marxism. That's what they're going to push. Global Economy. What's their goals by 2030 is their goal, but they're wanting to have it sooner. And I think they're probably going to get it sooner with all the power and money that they have.

So, what I want to do on this aspect is I want to focus on the political aspect, to let you know where it's going, and what you should expect so you can prepare. First, they're going to use and are using a psychological operation to get people to give up their rights through fear of a manufactured crisis. They have figured out that it works. So, they introduced the Wuhan, China virus into the world to scare everybody. Now, this virus is on the level of 1.6 mortality rates. That's the level of a flu, the flu is 1.0 to 2.0. But yet everybody's crazy. Everyone goes nuts. But see it wasn't about the virus, it is about getting control. So, they used the virus that were manufactured. Now we have evidence it is manufactured through gain of function. Then to introduce a vaccine. And then to stair step all the way up.

What's next on the vaccine? You've got to have more. You have to have more boosters. And then you're going to be taking pills. But what's beyond that? Beyond that is a vaccine passport that they are ready to introduce. Beyond that is more control of your life. And then they're going to combine it with the global warming hoax. They're going to tell you, you can only drive a certain amount of miles because you're emitting too many carbon emissions. So, they're intending to eradicate carbon emissions.

Why did something beneficial to plants all of a sudden become a poison? You know why? Because it's an agenda. The agenda is to stop your ability to travel, not only internationally, but domestically, from state to state. You're going to see a day, unless the Rapture happens, where your traveling will be prohibited. It's coming. And that's what they want. That's how you get control of people. Then they're pushing on an economic collapse. I'm sure one of our speakers will continue to talk about it.

And now they're pushing wokeism. Systematic Racism. LGBT. Transphobia is the new religion. So, what's the strategy? Indoctrinate via propaganda. Our public school systems and our college and universities have been the vehicle for several decades to promote this nonsense. You send a kid to public school or one of our colleges and universities, they come out of raging socialist. They come out ungodly. We got parents, Christian parents sent their kids off to college, raised them in a Christian home. Awana, Sunday School, the whole nine yards. Send them off to college. They come back an atheist. They come back woke. How's that happening? Because the schools are doing this and pushing the propaganda. Now we see this Critical Race Theory being foisted upon everybody in the United States.

We see these crazy lunatic leftist school boards that won't back down on pushing transgenderism, LGBT agenda and everything else. This is part of the plan. And then cause as much chaos and crisis to introduce authoritarian control to get order out of chaos. See, Satan is very smart, and he uses these tools in his hands to say, "Look, create enough chaos, people will be begging for somebody, a strong person, to come in, and take order of things. We've got to have order. So, it's intentional that you see chaos. Because then they can use that and say, well, you're right, it's chaotic. But in order for us to get control of this, we're going to ask you to give up your rights. So, you should give up your rights and we'll get this thing figured out. That's what they're going to do; and that's what they've been doing. Never let a crisis go to waste, remember Rahm Emanuel said that.

So, Charles Schwab, the head of the World Economic Forum, says, "The pandemic represents a rare but narrow window of opportunity to reflect, reimagine and reset our world." It's out there. It's not being hidden. Now this guy, Klaus Schwab, this is how the guy dresses, okay, so if you need a villain, this guy is your villain. Who sits there and wears an Anakin Star Wars outfit? And speaks behind a podium? Is this how evil people dress? I guess so. It's like out of a movie. Like kind of a James Bond movie. Look at this, man, I mean, this guy is like a doctor evil. You can't get worse than this guy. Unbelievable.

But check out what Schwab said in his book "The Great Reset," as he called it, he argues that the coronavirus pandemic can and should be used for an economical, societal, geopolitical, environmental and technological reset. Including advancing, there it is. What? Global government. They're not hiding it anymore. They're not hiding it.

Two, the second aspect politically that you're going to see is to introduce authoritarianism/totalitarianism, and then eventually start slipping in imperialism into the society.

Now this will be done through political maneuvering. And they will have to do it step by step. They're going to take the Monnet Method. The Monnet Method came out of Europe and how they structured the European Union. It goes all the way back to the mid-1950s, the 1940s, where Monnet was telling them, "Look, if you're going to unite all of the Europeans, and then eventually the world, you are going to have to do it step by step. You just can't just throw it on people." Well, that's what they're doing. That's what they're pushing. It is a step by step process. But you'll never return to life as it was.

Let me talk about imperialism really quick. Most people understand authoritarianism, they understand totalitarianism because they've seen it with Hitler, Mao, Stalin, you name it. Everyone can understand it. But imperialism is a little bit different. A lot of people don't understand this, so let me break that out really quick.

If you turn to Daniel 7:23, if you ever studied this, what it says is "Thus," talking about the fourth beast, the Roman Empire that was with Jesus in that day and is with us now, by the way. It's now changing. It's adapting to the new setting. So, the Roman Empire is still with us. The Roman Empire never went away, you just didn't see its imperial power. It's in the two legged form right now, according to Daniel's metallic man. And right now, it's forming into the feet and the toes of the ten league confederation that will rule the whole planet. But what he said about this fourth kingdom, he says, "Thus the fourth beast shall be a fourth kingdom on Earth, which shall be different." Okay, what's different about it from all other kingdoms? The difference is for the first time in history when Rome came on the scene after Greece, it implemented a policy called imperialism. Right? So, imperialism was a big deal. Now, what does this mean? Well, it meant this, and you probably saw it a little bit in the Gospels. You saw it in the Gospels when they were railing against paying taxes, right? Remember that? They were talking to Jesus about paying taxes. See, the Jews didn't have a problem paying taxes to the temple. What they were mad about is paying taxes to Caesar. Now, wait a second. See that's paying taxes to a foreign entity, and not your own local nation.

So, when they asked Jesus about paying taxes, render under Caesar, what is Caesar's? They weren't dealing with shekels per se. They were dealing with the coinage of Rome. They were paying taxes to Rome. That's imperialism. And other forms of imperialism would be that Rome, for the first time, put its own leaders in place; instead of using the native leaders, they used their own leaders. Hence that's why you saw Pontius Pilate. He was not native to the area. He was planted there to rule there under Rome.

Now bringing it into today. So, you and I haven't seen the imperialism of Rome, but now you're starting to see it, and reach to a level to where you and I here in America politically will see you and I be taxed from global entities. That your business deals, that your economics will be tied with global entities. Whether that's the World Health Organization telling you what you have to do medically. Whether that's the U.N. and you having to follow Agenda 2030 and implementing its carbon emission rules or whatever.

See what you're getting set up for is imperialism. Imperialism is coming back. So, you won't just simply be paying tax to the federal government and your state, you will be giving taxes to foreign entities. And you might see the reach of foreign entities reaching over into America and being allowed to operate in our country. It's not just going to happen in America, it will overreach into all the other nations as well, as they allow it. And so, I want to prepare you. if you see all of a sudden one day, the World Health Organization people here, or you see U.N. people here

telling us what to do. Then, you know, Rome's imperialism is back. And the Antichrist eventually will take the helm of that and run the whole show in that regard. So, you have to be thinking politically that's where it's going.

So let me give you some examples about how this happens politically. Imperialism, we're seeing is going to come to you via corporations. Now what do you mean? See, the corporations have done a deal with the globalists, the world health, the World Economic Forum, they've all done deals, World Health Organization, they've all done deals. Do you know what the deal is? We'll pay you big bucks to destroy your competition, so that you will have a monopoly at the end of this. But we need you to enforce laws that we, as governments, can't enforce.

That the US constitution prevents us as a government to do to the American people, so we need you, Walmart. We need you, Amazon. We need you, Facebook, Google to implement these policies. So, for instance, one policy is this this stupid carbon emission credit card. So Mastercard is now putting this out. You're going to watch Visa come right behind it, and you can watch Discover and all of these other American Express, come right behind this. And what does this mean? If you use their credit card too much for gas or whatever how you're paying for gas, they're going to cut you off. It won't be the government that cuts you off. It'll be Mastercard that cuts you off. It'll be Visa that cuts you off. So, they will limit how much you can spend.

Oh, by the way, you know how they're going to get around the Second Amendment, don't you? Visa, Mastercard and the rest of these credit cards who were doing the deal with the U.N. and others have already said this. "Well, we can't get around the Second Amendment in the United States, what are we going to do? Well, we're going to have to limit the buying and selling of guns and ammo. So, when you go to the gun store to buy your gun and buy your ammo, your Visa card isn't going to work. Well, I just pay cash. Oh no, no, they're going to digital currency here soon. There won't be any cash that you can buy. How will you buy guns and ammo if you can't swipe your card? Got you! You're cornered. You'll have to go black market. Because they're going to eliminate the Second Amendment. They cannot have Americans armed. They can't. They can't have authoritarian and totalitarian, if you have an armed populace, it doesn't happen. That's why they can get away with what they're doing in Australia, and New Zealand, and Europe. That's why.

So, you're going to see digital passports in order to travel. You're going to see food rationing, that's coming. Because they are already telling you, "Hey, you Americans are eating too much." Yeah, we're going to limit you guys to 1,800 calories. And look at Long Beach, well, we're having the problem out there. They're just sitting out there. They can't unload. You better buy your Christmas gifts now. You better get stocked up. I'm not trying to scare you, but they're not being able to offload these ships. And you're having a supply chain problem. Everyone knows this. And what are they going to do? See, when they can control your food, and they can control your buying, and selling, and what's on the shelf. They've got us.

Now again, I'm speaking from a worldly standpoint. I'm not trying to scare you because the Lord will provide for us. The Lord will give us what we need and see us through that. But you have to understand why they're doing this. They're doing it to control people. If you can control money and food, you've got people. That's what the agenda is. And they just shrug their shoulders, saying, "I don't know. I don't know why this is all happening?" I hear Jen Psaki saying, "I don't know." Come on. Clueless. And then they're going to eliminate meat, which is a bad problem for Billy because he's a meat guy. Right? Or you can have Bill Gates's synthetic meat, right? Oh,

gross, man, that thing will probably kill you. But you know why they want to eliminate meat, right? You know the real reason, don't you? It's bovine flatulence. That's what they have to eliminate. Yeah, this is real. This is the Green's idea of saving the planet. Because there's so much flatulence that comes from the average bovine that's destroying our air, they have decided to put balloon bags on the back of them.

Now that's Romans 1. That's what happens when you lose your mind. You start putting bags on the back of elephants, not elephant, cows, to catch the flatulence. I mean, are we serious? That's what Romans 1 is talking about. You lose your mind. You can't think straight. But they're going to do it. But honestly here's the real reason. The real reason is to eliminate protein from the average person's diet. Because if you eliminate protein and you put them on protein shakes, protein shakes don't work like real meat.

Okay, this goes back to Noah's day. After the Flood, what did God say to Noah? Eat meat. So, the environment changed so much that we needed to eat meat for protein. There's something about protein, eating meat that keeps us strong, that builds muscle. And they know this. They know if we do not eat meat, then we will be in a weakened state. Physically. That's the whole point. So, you can't get any revolt. You can overpower them. That kind of stuff.

I will say this they're going to spiritualized this. They're going to spiritualized this. They're going to say, "You need to save the planet. You need to do your part. Everybody needs to give their part in this." And so, they're going to limit you, the plan is to a hamburger patty a month. Now, that's crazy. I eat like a hamburger patty a day. Man, what are you guys talking about? Once a month?

But I want to show you in Scripture, let's take a break and look at this, because here's what's going to happen, they're going to spiritualized this. And then you know what you're going to see? You're going to see these ridiculous Laodicean churches push the same thing from the pulpit. Paul warned about it, didn't he? Now, the spirit specifically says that when? In the later times, they'll depart from the faith, apostasy, giving into deceiving spirits, doctrines of demons, commanding to abstain from meats. What? Wait a second. I'm living in a day and time when they're talking about this. Paul wrote this over 2,000 years ago. To be received with thanksgiving. Yes, you're supposed to receive the meat with thanksgiving. Amen. Praise God. For every creature of God is good and nothing is to be refused if they do receive with thanksgiving.

What is Paul echoing? He's echoing the Noahic Covenant, where God allows Noah and human beings to eat meat now. So, when they go against eating meat, yes, it's for it's to weaken us physically, but it's actually going against the command of God. It's a 180. It's Babylon. They're coming against God's edict.

Well, what else are they going to do? Reduce the population via abortion, euthanasia, manufactured diseases, as you're seeing? They've already figured out with the mRNA they can start messing with things in you. They already can figure that out. Or introduce another virus. Either one, they're going to reduce the population. Children restrictions. The new mandate, you're going to see if we're still here is this mandate. It's a bill to force men to have vasectomies after three children or at age 40, whichever comes first. It's going to be put on the American people. Hey, man, you can only have three kids. What are we in China? Oh, yeah, yeah, that's called totalitarianism, authoritarianism. Yeah, they want to do this.

Other things they will do politically, mandate things, lockdowns, exclusion zones, cancel culture, loss of free speech, loss of the ability to work. Medical segregation, which is now happening. Oh, we're not going to. I've heard doctors say I'm not going to treat the unvaccinated. That's segregation. Protesting the mandates or their agenda will be illegal.

Now, here's the thing I want to show you what's going on in Australia. If you haven't seen it, it'll blow your way. These poor Australians are simply peacefully protesting the mandates, the lockdown mandates, the mask mandates, and the vaccine mandates. Look at what happens when your country turns into a police state, an authoritarian state.

Video- Australian Freedom Protest/Police Arrests

Speaker 1: And I thank every member of the Victoria Police for the outstanding work, that they did yesterday in very challenging circumstances.

I want to thank them for putting themselves in harm's way to keep the rest of us safe.

But each and every one of us has got a part to play. We're all in this together, and we all pay a price. All of us. One way or another if we don't play our part. So, following the rules, and I know the rules are not fun, but they are there to keep us open. They are there to keep us safe. They are there to keep us safe.

Brandon Holthaus: They've devolved. That's a police state. And when the cops there say we're just doing what we're told, that's what the Nazi Germans said at the Nuremberg Trials, we were just following orders. The people have lost their conscience, and it's turned to an authoritarian police state. Now here's the thing. The reason that's happening in Australia, they can get away with it because the Australians don't have any guns. That's the problem.

They know they couldn't attempt that here, so they have to do it in a stair step model. And to get us economically broken down, like I said, to eventually not be able to use your money to buy weapons, and guns, and ammo. But this is what happens. This is what's going to happen all over the world. It's already going on. And politically, this is what they have figured out they can do.

Now it's starting to happen even here in America, to some degree. You got this that this Loudoun County School Board, that's out of control. They had just one of their superintendents resign lately. But they tried to conceal because of wokeism, they tried to conceal. This guy's daughter got raped, in a in a girl's locker room, because some guy said he was a girl, was wearing a dress, went into the locker room and raped his daughter. And Loudoun tried to suppress it. He tried to point this out at a board meeting. He tried to bring it to their attention, saying, "This transgender agenda is putting girls in harm's way. And my girl got raped because of your agenda, because of your wokeism." And look what happened to him. Now he's going to be arguing with this, this crazy gal here. And she gets in his face and said, "You're lying" Okay. And then what happens is the police take over.

This is happening around school boards all over America, because we have been hijacked for a long time by the left in indoctrinating our kids in public schools, and this is the kinds of school boards you get like Loudoun County. So, this guy's making an argument for his raped daughter.

The guy they arrested took him down was the father of the daughter who got raped, Loudoun tried to cover it up. So, he tries to point this out in a meeting. And he's called a liar. It didn't happen. And then these guys get arrested. So, this is what has happened now, as you know, the DOJ has been called in to help these so-called school boards fight against domestic terrorism. Parents who are protesting the mask, Critical Race Theory, the transgender movement and everything else. And you've got Merrick Garland now pushing the issue, getting the FBI involved, and calling people like you and I domestic terrorists because all they're doing is making their point, and they don't want to hear it. Oh, you're threatening me. You're bullying me. That wokeism stuff.

Folks, that's not an accident that's happening. When you get the DOJ and the FBI to tell parents, shut up. Don't say anything about our Critical Race Theory. Don't say anything about our pro-LGBT agenda. Shut up. That's authoritarian. They don't want to hear your religious arguments. They don't care because that's the way they're going. And nothing is stopping them. Nothing is stopping them.

Three, destroy the political process of every nation. Eliminate politicians and people's votes. Elections won't mean anything. The globalists have already talked about this. To get to a world where there's no politicians. We would say thank you for that. But what are they wanting? That they're in control. They already see a day where they're going to eliminate politicians. They're just useful idiots at that point for them. They believe just like it goes all the way back to Nimrod, that a few elite need to rule the entire world. This came out of Plato's Republic, Plato talked about an elite class ruling the world. And it's carried throughout history. It comes straight from Babylon. And so, they're going to eliminate politicians.

Well, if you don't have politicians, then who represent you? Oh, I'm sorry, you don't have any representation. We know best. We will tell you what to do. And you're looking at the elections going forward, of probably never having a legitimate election ever again. And that's the reality. I keep hearing the political pundits, the talking heads on TV, we're going to get it back in two years. We're going to-- you guys are out of it. You don't know spiritually what's happening. They have cornered the market on all of this. The new thing is now everyone's mailed an official ballot at home. This is the ultimate way of cheating in a system of votes. The mail in ballots, basically there are no restrictions or limitations for anyone turning in as many as they want. We've seen the dumps that happened in the middle of the night. That's going to continue to occur. It's not going away.

And the other thing about it is, they're now sending out people, to go help people use those mail in ballots. You say, "Well, what's wrong with that?" There's a big problem. That's how AOC is in the place that she's in, or Ilhan Omar. You know what just came out? This.

So, Zuckerberg, remember I told you, these big billionaires pumped in about \$500 million into the last election. A half a billion dollars. Who in the world has a half a billion dollars just to pump into a campaign? Now what he did, he funded two far left nonprofits, Center for Tech and Civic Life, and the Center of Election Innovative & Research. Oh, well, what's wrong with that? Well, because those two firms got that money and then hired what they called vote navigators. The vote navigators infiltrated certain counties in: Arizona, Michigan, Georgia, North Carolina, Pennsylvania, Wisconsin, Texas and Virginia. I wonder why? Now, here's what they did. The navigators went door to door to mostly poor and low information people telling them how to vote and to vote for Biden. And helping them fill out ballots and taking it for them to the voting polls.

So, in those counties, let me tell you this, all except one county in those states, all except one county, all won for Biden. Does that shock you? No. When you sink \$500 million. What that meant, the average campaign spends about \$3 or \$4 per person to influence, commercials or whatever. Because of Zuckerberg's money, they invested \$47 per person to influence their vote.

Now, the Thomas More Society says this is illegal. But here's the thing, I guarantee it's illegal, but nothing is going to happen. Now, when Zuckerberg or Bezos or any of these other are funneling a half million dollars into political campaigns. And going door to door saying, now you want to vote for Biden, right? Okay. And you're voting for Biden. Oh yeah, we'll turn these in no problem. We'll take care of it for you. He can hire the workforce to get the job done.

So please understand this is the political element of the Great Reset. They've got big, big money.

Fourth, they're going to undermine, ignore or destroy a country's laws. So, we're talking about America, we're talking about The Constitution, Bill of Rights, the laws of the land. They have to be able to get rid of this, or they have to go around it, or they just don't care either way. Nothing's going to happen to them.

What's going on right now, as I mentioned, is that there is a combination that's happening called corporate fascism. And the governments of the world, and the big businesses of the world, and the Big Tech have gotten together. And basically, and the banks too, have made up these things, saying, "Look, the government can't pass the law. So, we're going to need you guys to enforce this. And we're all going to call it ESG compliance; environmental, saving the planet, societal, or social, which is wokeism, and then governance, which means that on every leadership board or any business that you have, you will then be required to have someone from the trans-people. You have to have LGBT. You have this and that, whatever to be compliant. If you do not comply, then what they are saying already, we will not do business with you. You can't be part of the club unless you accept ESG. And so, where is the political power behind it? Well, it's illegal, but the corporations have agreed to do this. You saw the elimination of small business, during the shutdowns. That was intentional. The next thing is anyone that doesn't comply with this ESG score you're out too.

Now, let me bring it down to a personal level politically that will happen to you. Right now, it's going to be important to stay local in your banking. Stay local in your banking. Do not get into Bank of America and these other international banking systems, because they have all made this deal. And what they're going to say in the future in the near future is this: if you want a loan from us for a house, or a car, we're going to look at your social score, your ESG score, on whether or not you are worthy to receive funding from us.

Oh, Mr. and Mrs. Smith, we just noticed on your Twitter and Facebook account that you're very homophobic, anti-trans or whatever. I'm sorry, we can't make the loan to you, you're going to have to find someone else. You can't have that house loan. You can't have that car loan. You can't bank here. Oh, but is that legal? No, it's illegal. It's called discrimination. But who are you going to take your case to? Because the government is going to sit back today, we're not doing it, but we're also not going to penalize them either because they've made a deal with them.

How many companies are involved in this? Hundreds. Hundreds. I can't even show you all the companies involved in it. The NFL is totally with them. Major League Baseball, NBA, all of them. Coca-Cola, Comcast, Grubhub, Starbucks, Netflix, the whole thing. You could go on and on and

on. They've all made this deal. So, where's mom and pop in all of this? The mom and pop stores? Well, mom and pop it's not going to be able to comply with ESG scores. They're not. And so, they'll be eliminated. You can't get a business loan. You can't do anything. See politically that's what they're doing. Now, if you own a store, you're going to have to have a gender neutral aisle in California now, because the feral Newsom has just passed a law saying, "All you guys who have toy stores, you've got to have gender neutral aisles." See, if you don't comply, then California will nail you. So, mom and pop have a toy store, they have to have this general neutral even if they're Christians. Oh, you don't want to have a neutral aisle, I'm sorry, you can't do business. We'll just keep fining you every day, \$10,000 until you do.

Look what happened here in Vegas with Gruden, he's part of this thing. You know, he's canceled because of his sins against Babylon. Now no one's advocating what he said. He said it, but it was twelve years ago. And what he said was wrong. I get it. He should apologize and move on. But the man lost his career. And what are we seeing? We're seeing all across the board. If you don't comply with wokeism politically, the corporation will fire you. That's what happened. And there's just more examples. He's just the most prominent one.

But here's what we're seeing in California. They're pushing these mandates. Nurses are losing their job; they will not be vaccinated. And then we have teachers are getting forced by January, by Newsom to be vaccinated or lose your job. And this is happening all over the place. Now, I saw the military is now pushing it, they're going to discharge sailors for refusing to be vaccinated. See this is a political aspect; you must comply with the whore. If you don't, you're out.

And lastly, destroy nationalism, patriotism and replace it with a global citizenry. I'm only staying on the political aspects. And I'm sure you guys are probably aware of this. They are pushing now in the public schools, and in the colleges and universities to hate America. Right? That's intentional. They want these younger kids to hate America. And the predominant ones that you see on the streets rioting, are the ones who went to college. The colleges have messed their minds up to hate America, hate patriotism and believe the lie of systemic racism, the whole thing needs to be burned down. Hey, no one's denying racism. No one's denying that. But what we're saying is wait a second, you can't just burn the whole thing down. Oh, but that's what they want to do. They don't want the US Constitution; they want the whole thing burned down. That's why they claim systemic racism, to politically say it needs to be torn down. To say The Constitution is racist, we've got to destroy it. And what it does as you destroy it; they will bring in global governance. This is not going away.

So how do you do this? Destroy the borders. Destroy the language. Destroy the culture via illegal immigration. Now here's the thing, no one's against immigration. We are against illegal immigration because it's called stealing. Even if I want a better life, God doesn't give me the option to say, "Well, I'm just going to take it. I'm just going to steal it from other people." You don't have that option. So, we want legal immigration, but see, they don't care about that. They want illegal immigration to destroy the culture. And not just simply for votes, that's part of it. Harvard did a study, 80% of the people coming through the southern border will vote Democratic because they come from socialistic, Marxist, communist backgrounds in Central America. So, they bring this mentality over with them, not understanding America. But then when they see who's giving out the freebies, it reminds them of where they came from, and so they eventually vote for that. Harvard did the study and they proved it.

But at the end of the day, what's the other agenda? It's not just simply voting, it's to destroy the culture of America by creating tribalism. To get the people loyal to their tribal group, instead of being an American. Being part of the melting pot. Didn't matter where you came from, you know, you just come in, you become part of the melting pot, and you're now American. We don't care where you came from, you're now American. And you have our values, our Judeo-Christian values. No, no. They can't do that. They want it to be tribal, and loyal to their own pocket, because politically, it's simple, it's called divide and conquer. They've done that effectively to America. Think about this, all these people coming up. All this, all this stuff. We have a crisis at the border and there's letting it happen. It's insane. And here's the propaganda. America was never great. Hey, look, an objective view of history. There's never been a nation like America. Ever. Not as prosperous. Not as freedom loving. Never in all of history. But the idea is: take America down. And you've got these lunatics coming out of the colleges. This is where the war is, isn't it? These are the ones who graduate and hate our country.

Here's the funny thing when you look at the socioeconomic dynamics of these types of people, they come from wealthy backgrounds, and they're highly educated. What's that about? Something's wrong here. They don't want to tell you this, it's them, because at the end of the day, they had too much, they were given too much, and they're spoiled brats. That's what's happened to them. And so, they sit there all day, instead of finding a job, sit there navel gazing all day long, and wondering what windmills they can fight. And so, they latch on to these things to give them purpose. The millennials are the most ungodly generation we have ever seen in U.S. history; only 4% of them are believers. That's out of 80 million of them. They are a mass of ungodly people, no morals. I'm not saying they're not savable or anything like that. I'm just telling you that's the facts on the ground. It's the most ungodly generation in American history. And that's who you and I are contending with.

So, they're going to eliminate national sovereignty. They don't want us being sovereign. Move people from rural to urban areas. Let me talk about a little bit about national sovereignty really quick. Globalism doesn't want borders. Globalism wants to go against what God mandated; to separate the nations out. He did it by the languages. Globalism wants them to come back under one language, under one global unit, and so national sovereignty on a political level will wane very quickly. And then they're going to move people from rural areas to urban areas. Gavin Newsom is already starting this in California. And what starts in California ends up all through the United States.

What does this mean? Let's say you live in a neighborhood that is a single family zone. You got your neighborhood, it's nice. Well, with Gavin Newsom's policy there in California. You eliminate single family homes. And then what they will allow you to do is, right next to their home, if they want you, they can build an apartment complex. All there in your neighborhood. And there's no way you can stop it. What does that mean? They want to destroy the suburbs. They want urban areas. Why? Why do you want us all clumped up in a city like New York? Why do you want us all not spread out, but all together? Control. You got it.

So, when Gavin Newsom does a political maneuvering of single family zoning, that's part of the Great Reset. They don't want you living out in the country. No, no, we're going to come bring you in and you're going to live in the city, because that's how we can control you.

Now, with all that said, that's the political aspect. The rest of the leaders are going to tell you the other facets of the Great Reset. But this is the political aspect. You need to pay attention

because what's happening right now is what I see in this video of these people running into a hole, and they don't know what's happening.

Watch this.

Video Wendy's Commercial (People are running into a hole in the ground)

Speaker 1: Hey, something's not right here.

This feels a little creepy.

They're not thinking straight. But why?

That's why. (On screen Romans 1)

Brandon Holthaus: I leave with this. The whole world running into this big hole. And the Wendy's guy, he obviously woke up, right? He's not going to run into the hole. But what's my point? Here's what I got to leave you with. My point is, you and I see it. You and I can spot it. Well, that brings great responsibility to us, doesn't it? If I can see this, then what does God expect out of me? I must tell it. I must explain it. I must talk to my family. I must talk to my friends. My coworkers, and say, "Hey, when you see this, this is what prophecy talked about. We're heading to the Tribulation." And that means for believers, we're going to be raptured soon. And you need to be on that lifeboat of the Lord Jesus Christ. That's what our message needs to be. And then, so not only to the evangelize the lost, but then to wake up the Laodicean church, for goodness sake. Let's light a fire under them. They're sleeping. They're acting all like, we're going to return back to normal, it is going to be great. Just comply. Wake them up. God wants them awake, because when they go to sleep, they don't know what's going on.

So, we have a two-fold, aspect evangelize and wake the rest of them up. Amen. Let's pray. "Father, we thank you Lord, for what we can study this weekend. And, Lord, it's so heavy sometimes. We know it signals that when we see these things begin to happen, we need to look up and lift up our heads because our redemption draws near. We thank you for that truth. But help us to be on mission for you, not to surrender, but to be on mission. To tell the truth in love, and see many people get saved in these last days. We pray now in Jesus' name. Amen.

God bless you, guys. Thank you.
